DID YOU KNOW

Upper Vista is Niagara Falls' first and only luxury condominium residence, offering a range of suites from one bedroom vacation homes to three bedroom penthouses to accommodate every lifestyle.

NATURALLY INSPIRING

Upper Vista is inspired by Frank Lloyd Wright's Fallingwater, an intriguing home designed in 1935 that extends slightly over a thirty foot waterfall. Upper Vista shares Fallingwater's symmetry with cascading water; its transparent glass casing nurtures clear views of the surrounding golf course, the Falls, and forests beyond. Robust horizontal lines and wide cornices evoke natural strength. Many residences feature palatial terraces and floor-to-ceiling windows, linking the magnificent interiors to the breathtaking landscape beyond. Even Upper Vista's colours, its warm stone base topped with fluid glass and touches of green, suggest a connection to the earth. The building appears to emerge organically from the landscape.

DID YOU KNOW

More than six million cubic feet of water goes over the crestline of the Canadian Horseshoe Falls every minute during peak tourist hours, at a rate of 600,000 gallons per second! Water flows over the American Falls at a rate of 150,000 gallons per second.

THE ULTIMATE SENSE OF ARRIVAL

Upper Vista's porte-cochere is a truly graceful architectural feature. This elegant carriage entrance provides year round protection from the elements, as well as a sophisticated portal that announces to the world, you've indeed arrived.

Real estate development, health care, education, finance, logistics, and management consulting are among Mr. Zhou's core operations, employing over 3,000 people.

Over the past 13 years, his Chinese real estate company (Shanghai Oriental Capital Group) has built over 42 million

square feet of new mixed-use developments in China, including over 90,000 residential homes, offices, hotels, retail, schools, hospitals, public parks, recreation amenities, transportation and logistics infrastructure, and industrial facilities.

Most recently, Mr. Zhou's company completed construction on Danchengyipin, a 1.5 million square foot mixed-use condominium lifestyle development on Hainan Island; and currently under construction is the company's most ambitious project to date: Dongfangweiyue Square, a 10 million
